

~~CIA INTERNAL USE ONLY~~

JOURNAL

OFFICE OF LEGISLATIVE COUNSEL

Monday - 15 July 1968

1. (Unclassified - CEA) Called Nancy Sargent, in the office of Senator Edward Brooke, and informed her that we have been unable to make a satisfactory identification of the area of South Vietnam for which she had requested a map. I suggested that she obtain additional information from the constituent who had requested the map and then get in touch with DIA. See Journal of 9 July 1968.

2. (Internal Use Only - LLM) Mrs. Susan Wagner, in the office of Representative John Dellenback (R., Ore.), who has previously been in touch with us for the Congressman concerning the Pueblo, called to determine if we had any information on the cause of death for the crew member who lost his life.

STAT

I told Mrs. Wagner that the Department of State had all information we possess and she said she was meeting with State Department representatives tomorrow. She also asked if the Agency had commented on a statement by Senator Stephen Young that the Pueblo was a CIA ship. I reminded her that the Agency does not engage in public comment as a matter of normal policy and referred her to the earlier statements by the Pentagon in late January that the Pueblo was a Naval ship performing a Naval mission. Mrs. Wagner thanked us for our help.

3. (Unclassified - JGO) Received from House Post Office and Civil Service Committee staff the transcript of the testimony of Dr. Nate Wolkomir, President of the National Federation of Federal Employees.
